The Millennial Generation:

Developing Tomorrow's Leaders

ABOUT CEPA

Collaborative Educational Programs for the Americas (CEPA), a Non-Profit Public Benefit Corporation, is an innovative approach for developing future leaders. During the past decade CEPA has hosted leadership conferences nationally and internationally. The next CEPA Leadership Consortium Conference will be held October 9-11, 2014, at the El Tropicano Riverwalk Hotel, San Antonio, Texas. The theme is *The Millennial Generation: Developing Tomorrow's Leaders*.

CEPA conferences are intended to provide aspiring leaders with a comprehensive experience including the opportunity to make scholarly presentations, as well as network with established educators and professionals from many disciplines. It provides a forum for leaders to learn to be visionary, become risk-takers, and break away from old paradigms to make positive changes. Through CEPA, qualities and skills are gained for a strong foundation of leadership: relentless drive to improve leadership, a deep sense of integrity and inner strength, and the ability to initiate a dynamic interchange of ideas with others dedicated to a common mission and philosophy. Hence, aspiring leaders have an opportunity to enhance their professional development by actually practicing leadership.

Concomitantly, CEPA is designed to mentor future leaders in conjunction with their formal academic program. Therefore, CEPA encourages colleges and universities to be at the forefront in dealing with the challenges of the 21st century. One of the most important principles embraced by CEPA is investing the time needed in developing new leadership. This cannot be done fleetingly, but must be a conscientious effort. We must

all make a full-time commitment to the intellectual development of our future leaders, and we as leaders must also concentrate on vision, risk and change.

CONFERENCE GOALS & OBJECTIVES:

1. To encourage, mentor and support new and upcoming leaders in diverse fields of interest,
2. To improve leadership through collaboration,
3. To maintain a focus on humanistic values and ethical practices,

I want to thank you again for the wonderful conference on Visionary Leadership: An Ethical and Innovative Approach to Empowerment that you organized in Corpus Christi earlier this month. The inspiring and intellectually stimulating conference has ended. I was very impressed with your innovative program of powerful young future leaders. It was a trail-blazing experience (to use the Texas vernacular). Dr. J. Fischer, Texas. 2002
